

CARENA

White

Add a touch of exclusivity to your home, office or store with the lustrous Carena White.

Carena, a Fichet-Bauche classic, has now been redesigned to create this sleek, stylish safe in pure pearly white.

Every detail of the safe, from the transparent fittings to the spotlight interior, has been expertly sculpted to create a graceful and sophisticated design.

You can even lend your own character to the safe by choosing from a range of specially selected Carena door art.

Carena White is available in the full range of standard Carena models, with all the same locking and fittings options, and, of course, offers the same levels of certified burglary protection.
